Woman's Club of Douglaston

In Honor of America's 250th Birthday, in collaboration with the Museum and Antiques Committees, the WCD plans a trip to The Old Stone House in Park Slope, Brooklyn. The House and its grounds played a critical role in saving George Washington and his army from total destruction during the Battle of Brooklyn on August 27, 1776. It became the epicenter of a heroic rear-guard defense by the Maryland 400 led by Brigadier General William Alexander. We will learn more about their bravery during our visit.
